OF THE EFFECT OF THE STRIKE.

Whisky Trust and Sugar Lead in the Trading-Indianapolis Grain Continues Active.

At New York, Friday, money on call was easy at 1 per cent. Prime mercantile

paper, 33, 64% per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.88% for demand and \$1.87% for sixty days; posted rates, \$4.88@4.891/2; commercial bills, \$4.861/4. Silver certificates, 64@65c. Bar silver closed at 62%c per ounce; at London, 28%d. Total sales amounted to only 90,794 shares.

Yesterday was a very dull day on 'Change and the transactions were lighter than for many days past, the sales of only two stocks exceeding 10,000 shares, and of but three others exceeding 5,000 shares. But despite the general inactivity the speculation was fairly firm during a great portion of the day. The continuance of the strike, of course, exercised a depressing influence on the railway list, the room traders, who were about the only ones in the market, being afraid to buy under the circumstances, and they were not sufficiently confident of the lasting quality of the strike to sell very heavily. The May report of the Chicago, Burlington & Quincy was not regarded as entirely favorable, the cost of operation being unusually heavy. Sugar led in the transactions, opening 1/2 lower, and then on good buying, believed to be for the account of insiders, rose 24. The advance was contested and under occasional raids there were frequent reactions on the way up. A 1 per cent. decline followed, after which came a recovery of % and a final reaction of %, leaving a gain of 14 on the day. Chicago, Burlington & Quincy declined % under brisk selling, but railied 1/2 at the close. St. Paul fluctuated within a margin of % per cent, making a gain of % on the day. Rock Island, which ex. dividended, receded ¼ and Northwest %. There was good buying of Distilling on the passage by the Senate of the whisky schedule, increasing the spirits tax 20 cents on the gallons,..,f ,clo shrdlhrdlhrdl cents per gallon, and an improvement was recorded in the shares of 11/8, with a subsequent reaction of %. Chicago Gas opened 4 higher, sold down % and recovered %. standing even on the day. In the rest of the list the trading was light and the speculation unsettled.. Toward the close the market came into better tone, and closed fairly firm, prices showing an up-

The bond market was held firmly during the day, the principal changes being: Advances-Chicago & Eastern Illinois firsts, 11/2; Consumers' Gas firsts and St. Louis & San Francisco Trust fives, 1. Declines-Wisconsin Central firsts, 9; Northern Pacific thirds, 5; and Oregon Navigation firsts, 2 per cent. Government bonds were steady. State bonds were dull. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the

LOCAL GRAIN AND PRODUCE. Summer Duliness Over Trade Circles.

and Values, as a Rule, Steady. On the wholesale streets trade is down to a minimum volume and is spasmodical in its character, one day of fair business being followed by two in which little is done. The grocers begin to talk of trade being quiet for the first time in many months, the activity preceding harvest having passed off. Sugars are firm and another advance in prospect. Coffees are in strong position. In provisions there is an active movement for June, with prices firmer. On Commission row business is fully up to the usual June standard; in fact, more fruit and vegetables seem to be offered than last year at the correspond-ing period and at low prices. Receipts of tomatoes are more liberal, but prices are ropping. They are still shipped in here from quite a distance. In green beans, peas, cucumbers and Irish potatoes the market is overstocked. It is very seldom that arrivals of watermelons are as large this early in the season. The flour market is flat. The wool market is active still and receipts in excess of June last year, notwithstanding the low price. The local grain market is active. Not in many weeks has more interest been shown. There is a better attendance on 'Change and more life to the bidding. Track bids yesterday ruled as follows:

Wheat—No. 2 red, 53%c; No. 3 red, 51c. Corn—No. 1 white, 44c; No. 2 white, 44c; No. 3 white, 44c for one color, 44c for grade; No. 4 white, 41c; No. 2 white mixed, 4314c; No. 3 white mixed, 4314c; No. 4 white mixed, 42c; No. 2 yellow, 43c; No. 3 yellow, 43c; No. 4 yellow, 43c; No. 2 mixed, 42c; No. 3 mixed, 42c; No. 4 mixed, 39c; ear corn, 43c. Oats-No. 2 white, 46c; No. 3 white, 45c; No. 2 mixed, 45c; No. 3 mixed, 44c; rejected,

Rye-No. 2, 52c for car lots; 45c for wagon Hay-Choice timothy, \$11.50; No. 1, \$11; No. 2, \$9.50; No. 1 prairie, \$6.50; mixed, \$3; clover, \$7.67.50 per ton.

Mary L. Kessler, lot 24, in Allen's second north addition...... and wife, lot 1, in square 16, in 1,800.00 Sprott, lots 57 and 76, in Glenn's subdivision of Brookside addition

Transfers, 9; consideration...... \$10,208.85 JULY MAGAZINES.

Harper's Magazine has been distinguishing itself in recent issues by the excellence of its short stories, but the literary editor seems to have been off duty when several of the contributions were accepted for the July number. Anything professing to be literature more silly than "Un Mauvais Quart d'Heure"-which title might better have been rendered in English-or "In Fly Time," it would be difficult to find. The first-named story also verges on vulgarity. Owen Wister's "Specimen Jones," is a spirited sketch of Arizona life. Brander Matthews's "Before the Break of Day," is hardly up to the standard of his "Man-hattan Vignettes." It is a story of low life, but without sufficient interest to justify its being. But whatever the short stories may lack is made up by the ever-delightful "Trilby." Du Maurier's serial is reaching a conclusion, and the end, it seems clear, is to meet the approval of old-fashioned novel readers by being happy. Charles Dudley Warner's promised serial, "The Golden House," opens in this issue. College students will be interested in a paper describing a Harvard and Yale boat race. Henry Loomis Nelson writes of the home life o the President-the subject being treated in a general way and not in relation to any one occupant of the White House, W. D. Howells continues his account of his first visit to New England. An interesting arti-cle is that by Miss C. H. Spence, describing an "Australian's Impressions of Ameri-Commander Jewell writes of the United States naval gun factory, and Alexander McAdie contributes a study of electricity under the title, "The Storage Battery of the Air."

In Scribner's Monthly the attractions of the north shore of Massachusetts bay as summer resort are pleasantly set forth by Robert Grant. Some extracts from a diary kept in the summer of 1863 by Philip Schaff, then a theological student in south ern Pennsylvania, give a vivid picture of the events of "Gettysburg Week," as they seemed to the people living in the vicinity. Carl Lumboltz writes of the "American Cave-Dwellers," and Philip Gilbert Hamerton on "The French in Holland"-this term referring to a painting by Francois Flaming, the real subject of the sketch. A pathetic story is that of "A Man Without a Memory"-a confederate soldier whose brain was injured by a wound and his memory of events lost for thirty years. N. S. Shaler follows his entertaining study of dogs with a paper on camels, elephants and other beasts of burden. Octave Thanet continues her series of studies of the American workingman, and Ernest Flagg writes about New York tenement house evil and its cure. "Aut Caesar, Aut Nihil." is the title of a little essay by Agnes Repplier, on certain phases of the woman question. She utters some plain truths in her graceful way, the moral of her talk being that in so continually celebrating themselves and their moderate successes women encourage each other in mediocrity.

"The Heraldry of the Plains" is th title given by Alice Mac Gowan to an article in McClure's Magazine describing the system of branding cattle. Ida M. Tarbell writes of the Paris municipal laboratory, which is the chemical annex to Wooden Dishes-No. 1, per 1,000, \$2.20; No. | the Department of Public Health, and deand drink of the people. Alphonse Daudet's account of his home life and literary work, as told to R. H. Sherard, is a feature of the number. A short story by Bret Harte is called "An Ingenue of the Sierras." Another very clever short story, "Told in Confidence," is the work of Cella Eliza Shute, a new name among fiction

Music teachers who hold that the study of music is so severe a mental training that the student might properly omit an extended mathematical course in school will find support for their argument in a paper by Prof. Matthews on "Music as Discipline and Culture," in the July number of Music, though this point is not the one at which the writer aims, perhaps, Among the other contributions to the number are "Music and the American Poets," "An Appeal for Sight Reading," "Piano Touch," and "Pedagogic Aspects of the Practice Clavier." Chicago.

Annals of the American Academy, bimonthly devoted to political and social science, is published in Philadelphia Among the articles in the July issue are Future Problems of Charity and the Unemployed," "Peaceable Boycotting," "Significance of a Decreasing Birth Rate, "Rent and Profit." A supplement of sev-enty-five pages is devoted to an exhaustive consideration of "The Theory of Sociology" by Professor Giddings, of the faculty of political science, Columbia College.

The Art Amateur not only furnishes practical instruction to students in the several varieties of decorative art, but also gives a description, each month, of the newest pictures in the leading art gal-leries of this and foreign countries. Its readers are afforded a comprehensive view of the picture world. The profusion of supplement designs and patterns are much supplement designs and patterns are much valued by students. Two color plates are sent with the July issue. 23 Union Square, New York.

Romance, that excellent monthly magazine of short stories, has reduced its price dozen stories by the best authors are given in each issue, and the purchasers certainly get their money's worth. The magazine is sent yearly for \$1. Romance Publishing Company, New York.

Advance of Civilization.

New York World. There is not the slightest doubt that this world is becoming civilized. Ravaillac stepped into the carriage of Henry IV, ruler of France, and stabbed him to death. ruler of France, and stabbed him to death.

The assassin was broken on the wheel most elaborately and melted lead was poured into his stomach through his navel.

The Italian Santo stepped into the carriage of Carnot, President of France, and stabbed him to death. The assasin was protected from harm by Carnot's official servants. He will be fairly and justly tried and executed as mercifully and paintried and executed as mercifully and pain-lessly as possible.

THE INDIANAPOLIS JOURNAL, SATURDAY, TUNE 30, 1894.

REACTED ON BUYING AFTER A DE-CLINE ON BEAR NEWS.

Corn Held Its Own, but Oats Fell Of 11-ic and Provisions Declined in All Descriptions.

CHICAGO, June 29 .- After an early decline under bearish news, wheat reacted today on buying and closed 1/1c higher for September. Corn closed unchanged. Oats 14c lower and provisions lower all around. Opening trades in wheat were 46%c loss and, after advancing 1/201/4c, gradually declined 3,6%c, became quite firm, advanced 1@1%c and closed steady. The weak chbles the strike situation, the larger movement of the new crop and the fine weather here and abroad all combined to create a bearish tone and several long lines were sold out. The advance just before the close of the session was due to good buying and better closing cables. Shorts covered.

Corn was steady within 1/2c range. A decline in the middle of the session was caused by sympathy with wheat, but the market firmed up on buying. Oats were weak on favorable weather

and free offerings. The range was %c for Provisions were dull and easy with wheat,

Compared with last night, September pork is 17½c lower; September lard, .05c lower, and September ribs, .07½c lower.

Vessel room was in fair demand at 1c for wheat, corn and oats to Buffalo. Receipts, to-day, were: Wheat, 19,000 bu; corn, 235,000 bu; oats, 188,000 bu. Shipments -Wheat, 29,000 bu; corn, 237,000 bu; oats, 129,000 bu. Estimates for Saturday are: Wheat, 41 cars; corn, 150 cars; oats, 105 cars; hogs, 10,000 to 12,000 head. Leading futures ranged as follows:

RESUMPTION IN TRADE

THE PULLMAN STRIKE, HOWEVER, IS A SERIOUS MENACE.

Dun & Co. Note a Heavy Underlying Tone to All Business-Bradstreet's Six Months' Failure Record.

NEW YORK, June 29 .- R. G. Dun &

Co.'s weekly review of trade will say tomorrow: The great strike of coal miners has ended at most points, but another threatens to interrupt business more seriously for a time, though the number of hands engaged is comparatively small. Travel and traffic are well nigh arrested on about twenty Western roads already, and strikes are threatened on all roads which use Pullman cars. On the whole, other changes during the week have been for the better. Many manufacturing establishments which were stopped by want of fuel have been resumed. The depletion of the treasury reserve has been checked by the voluntary deposits of gold by New York banks. Exports of gold have almost ceased. Congress has made much progress towards final disposition of the tariff question. Crop prospects grow better as the arvest draws hearer. The resumption work in mines and mills has made good progress, but the demand for products is yet smaller and less urgent than was expected. Buyers apparently wait for lower prices of iron and steel products, which manufacturers are slow to give, in view of the increased cost of materials and pro duction. After a suspension of half the working force for more than a month it was expected that orders for products would be very large, but instead there is general complaint of dullness and narrow demand, and prices of Bessemer pig and some finished forms are a little weaker. Although the working force has evidently increased, several establishments have stopped for want of orders, or because no settlement regarding wages for the comi

year has yet been reached. Textile manufacturers are much emb rassed by the near approach of probad change in the tariff, the effect of which cannot yet be calculated. In spite of this reason for deferring orders and purg mases the number of mills quitting work is not yet as large as was expected, for there appears a little more demand for lothiers and jobbers. The cleaning-up process has been accelerated with success to cess has sions in some cotton goods, but fall orders are still limited, and the accur fall orders goods continues. Somewhat better orders in woolens, particularly in loveter orders wool goods, and in Clay dispersed allwoolens, particularly in lov-priced allwool goods, and in Clay disponals and
amount, give hope of larger large in
the mills are buying cautiously, and sales
of wool fell below last year's 2,788,700 lbs
for the week, against 3,142,90 lbs. In four
weeks of June sales two years ago were
23,769,250 lbs, last year only 9,235,876 lbs, and
this year 11,667,824 lbs. Growlers and other
holders of wool seem disposed to demand
higher prices than can now be paid, but
receipts from the interior are liberal and
exceed the present demand.

Wheat has declined 2 cents, the year closing with insignificant exports. For four
weeks of June exports worts. For four
weeks of June exports worts. For four
weeks of June exports worts. For four
seeks of June exports worts. For four
weeks of June exports worts. For four
weeks of June exports worts. For four
weeks of June exports worts. For four
seeks of June exports worts. For four
weeks of June exports, gainst 9,917,454 bu
last year, while Western receipts have been
5,620,880 bu for the sa me weeks against
8,910,942 bu last year, a much smaller deing larger than of whea
t, and a heavy crop
is expected.

Pork products are stage a shade lower

Pork products are also a shade lower.
Cotton has yielded a sixteenth, as speculation against the enormous stocks in sight

This week the failures have been 214 in the United States, agrainst 307 last year, and thirty-five in Canada against twenty-seven last year. Of late the number and importance of failures fite the number and the, as is usual at the crose of half a year.

Failures for St. Months. NEW YORK, June 29.-Bradstreet's will say to-morrow: While there is no actual Improvement in business throug-hout me country there are more favorable projects and better feeling among merchants, with an increased number of instances where trade has been stimulated. The end of the great bituminous coal strike is promptly followed by a sympathetic strike of railway employes which threatens disastrous effects on business by reason of interference with distribution and travel. Losses on perishable freight in transit are already reported. Other unfavorable features include a conference of Rhode Island cotton mill owners as to the advisability of shu ting down, owing to the accumulation of stocks; heavy arrivals of wool at Eastern markets, where stocks are already large; delay in settling the coke strike, which prevents many industrial establishments from starting up; an extremely restricted volume of business among wholesale dealers in clothing at Baltimore, 43 per cent. of what it was in the first half of last year; delayed orders from country merchants in Georgia and South Carolina, where crop damage has been threatened and a sharp

restriction in the volume of general trade

at Chicago, where the railway strike cen-

At New Orleans trade in all lines is smaller. At Nashville and at Birming-ham it is dull and without sign of early mprovement, which is also true at Portland. New England woolen mills at work on dress goods and men's wear report a moderate revival in orders, and shoe shipments from Eastern factories hold up well, while Boston ianks report increased de-mands for loans and Providence jewelers fair orders for autumn delivery. There is more activity in nearly all lines of business at Augusta and the demand for cotton is heavier. Continued improvement is reported from Galveston, where collections are easier. Laports of wheat, flour included, from both coasts, equal 1,717,000 bushels, against 1,927 90 bushels last week, 3,971,000 ushels in the last week of June, 1893, 3,-216,000 bushels in that week of 1892 and 2,221,000 bushels in 1891. The total number of actual business failures in the United States for the past six months (failures in which assets are less than liabilities) is 6,528, which is more than than liabilities) is 6,528, which is more than in any preceding similar period, an increase of 4.6 per cent. compared with the first half of 1893 and 22 per cent. more than in six months of 1892. The present tendency in the number of failures to decrease is shown by the fact that while at the end of the first quarter of the current year the increase over the like period last year was 900 failures, the increase this year over last at the end of a half year is only 289 failures. Total liabilities of failing traders for the six months are \$82,555,000, assets being only 54 per cent. of that total. These aggregates are each less than one-half of that they were for six months in 1893 and smaller than in six months of 1891 as well. Pennsylvania and California show striking increases in numbers of failures and Illiincreases in numbers of failures and Illi-nois and Kansas noteworthy decreases. There were 957 business failures in the Dominion of Canada and Newfoundland re-

ported since Jan. 1, against 887 in a like portion of 1893. The Same Conger.

To Inquirer: Yes, the A. L. Conger, of Ohio, who is abusing Governor McKinley is the same man who spent all his spare time for four years in scolding President Harrison because his candidate was not nominated postmaster at Akron. Only Democrats who are desperately hard up for consolation of some kind take Mr. Con-

Allen's Little Mistake. San Francisco Chronicle.

Senator Allen says he voted for a duty on sugar "because Harrison left a bank-rupt treasury when he left the White House.' As the net cash balance on the 1st of March, 1893, four days before Cleve-land took office, was \$125,000,000, Senator !Allen must be a trille mistaken.

Daily, Sunday 18d Weekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense, Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana

Washington Bureau

Was established for the purpos of looking after matter which the State and itspeople are concerned, and under the manages ment of egentleman well acquaints ed will the local business and politica issues.

I has a correspondent in every own of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taxte.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscripe tion price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican dor
